

**Between Bars Podcast  
Trailer – Introducing: Between Bars  
Transcript**

Hi. I'm SheryLeigh, a writer, performance poet, and the author of two books. This is "Between Bars." Nope, it's not a rap podcast – but a poetry one in which we share poems and the stories and inspiration behind the lines.

Between the bars are the moments that make us human – those of joy and pain, of uplift and unrest, of love and hate, of failure and triumph. This podcast will give utterance to untold stories, both personal and universal.

Each episode, expect to hear a poem, a breakdown of some key points within the piece, and the headlines, happenings, or history that inspired them – in 15 minutes or less.

For season one, we'll explore pieces from my two books, "black pearls" and "Promises & Epiphanies." I hope you'll join me every other Wednesday on a journey of truth and hope.

Between Bars, coming April 21, 2021, to podcast feeds everywhere. Subscribe now, wherever you listen to podcasts.
